

**TITLE 50: INSURANCE**  
**PART 1406 INDIVIDUAL AND GROUP LIFE INSURANCE POLICY ILLUSTRATIONS**  
**CHAPTER I: DEPARTMENT OF INSURANCE**

**Section 1406.10 Purpose**

The purpose of this Part is to provide standards for both individual and group life insurance policy illustrations that will protect consumers and foster consumer education. This Part provides illustration formats, prescribes standards to be followed when illustrations are used, and specifies the disclosures that are required in connection with each illustration. This Part will ensure that illustrations do not mislead purchasers of individual or group life insurance and as a result life insurance illustrations will be more understandable, allowing consumers to make better informed decisions about coverage. Insurers will, as far as possible, eliminate the use of footnotes and caveats and define terms used in the illustration in the language that would be understood by a typical person within the segment of the public to which the illustration is directed.

**Section 1406.20 Applicability and Scope**

This Part applies to all individual and group life insurance policies and certificates issued after June 1, 1998, except:

- a) Variable life insurance;
- b) Individual and group annuity contracts;
- c) Credit life insurance; or
- d) Life insurance policies and certificates with guaranteed scheduled death benefits of \$10,000 or less, or illustrated death benefits less than \$15,000.

**Section 1406.30 Definitions**

Actuarial Standards Board means the board established by the American Academy of Actuaries to develop and promulgate standards of actuarial practice.

Contract Premium means the gross premium that is required to be paid under a fixed premium policy, including the premium for a rider for which benefits are shown in the illustration.

Currently Payable Scale means a scale of non-guaranteed elements in effect for a policy form as of the preparation date of the illustration, or declared to become effective within the next 95 days of the preparation date.

Director means the Director of the Illinois Department of Insurance.

Disciplined Current Scale means a scale of non-guaranteed elements constituting a limit on illustrations currently being illustrated by an insurer that is reasonably based on actual recent historical experience, as certified annually by an illustration actuary designated by the insurer. The standards established by the Actuarial Standards Board (ASB) (1720 I Street, N.W., 7th Floor, Washington, D.C. 20006) (Actuarial Standard of Practice No. 24, Compliance with the NAIC Life Insurance Illustrations Model Regulation as of December 1995, no subsequent dates or editions) may be relied upon if they:

Are consistent with all provisions of this Part;

Limit a disciplined current scale to reflect only actions that have already been taken or events that have already occurred;

Do not permit a disciplined current scale to include any projected trends of improvements in experience or any assumed improvements in experience beyond the illustration date; and

Do not permit assumed expenses to be less than minimum assumed expenses.

Generic Name means a short title descriptive of the policy being illustrated such as "Whole Life," "Term Life" or "Flexible Premium Adjustable Life."

Guaranteed Elements and Non-guaranteed Elements mean:

Guaranteed Elements means the premiums, benefits, values, credits or charges under a policy of individual or group life insurance that are guaranteed and determined at the time of issuance.

Non-guaranteed Elements means the premiums, benefits, values, credits or charges under a policy of individual or group life insurance that are not guaranteed or not determined at the time of issuance.

Illustrated Scale means a scale of non-guaranteed elements currently being illustrated that is not more favorable to the policy owner than the lesser of:

The disciplined current scale; or

The currently payable scale.

Illustration means a presentation or depiction that includes non-guaranteed elements of a policy of individual or group life insurance over a period of years and that is one of the 3 types defined below:

Basic Illustration means a ledger or proposal used in the sale of an individual or group life insurance policy that shows both guaranteed and non-guaranteed elements.

Supplemental Illustration means an illustration furnished in addition to a basic illustration that meets the applicable requirements of this Part, and that may be presented in a format differing from the basic illustration, but may only depict a scale of non-guaranteed elements that is permitted in a basic illustration.

In Force Illustration means an illustration furnished at any time after the policy that it depicts has been in force for one year or more.

Illustration Actuary means an actuary meeting the requirements of Section 1406.100 who certifies that illustrations are based on the standard of practice promulgated by the Actuarial Standards Board.

Lapse-supported Illustration means an illustration of a policy form for individual or group life insurance failing the test of self-supporting as defined in this Section, under a modified persistency rate assumption using persistency rates underlying the disciplined current scale for the first 5 years and 100% policy persistency thereafter.

Minimum Assumed Expenses means the minimum expenses that may be used in the calculation of the disciplined current scale for a policy form.

The insurer may choose to designate each year the method of determining assumed expenses for all policy forms from the following:

Fully allocated expenses;

Marginal expenses; and

A generally recognized expense table based on fully allocated expenses representing a significant portion of insurance companies and approved by the National Association of Insurance Commissioners or by the Director.

Marginal expenses may be used only if greater than a generally recognized expense table. If no generally recognized expense table is approved, fully allocated expenses must be used.

Non-term Group Life means a group policy or individual policies of life insurance issued to members of a group where:

Every plan of coverage was selected by the employer or other group representative;

Some portion of the premium is paid by the group or through payroll deduction; and

Group underwriting or simplified underwriting is used.

Policyowner means the owner named in the policy or the certificateholder in the case of a group policy.

Premium Outlay means the amount of premium assumed to be paid by the policyowner or other premium payer out-of-pocket.

Self-supporting Illustration means an illustration of a policy form either individual or group for which it can be demonstrated that, when using experience assumptions underlying the disciplined current scale, for all illustrated points in time on or after the fifteenth policy anniversary or the twentieth policy anniversary for last survivor policies (or upon policy expiration if sooner), the accumulated value of all policy cash flows equals or exceeds the total policyowner value available. For this purpose, policyowner value will include cash surrender values and any other illustrated benefit amounts available at the policyowner's election.

#### **Section 1406.40 Policies to Be Illustrated**

- a) Each insurer marketing policies pursuant to this Part shall notify the Director whether a policy form is to be marketed with or without an illustration. For all policy forms being actively marketed on June 1, 1998, the insurer shall give written notice to the Director identifying which policy forms it was marketing on June 1, 1998, and the insurer must also indicate whether or not an illustration is used in marketing each policy identified. This written notice must be filed with the Life/Accident and Health Compliance Unit of the Department of Insurance by June 1, 1998, and must include the policy form number and filing number. For policy forms filed after June 1, 1998, the identification shall be made at the time of filing. Written notice must also be given to the Director if an insurer changes the usage of an illustration when marketing a previously identified policy form. Such

notice must be filed with the Life/Accident and Health Compliance Unit of the Department of Insurance within 60 days after such change.

- b) If the insurer identifies a policy form as one to be marketed without an illustration, any use of an illustration for any policy using that form prior to the first policy anniversary is prohibited.
- c) If a policy form is identified by the insurer as one to be marketed with an illustration, a basic illustration prepared and delivered in accordance with this Part is required, except that a basic illustration need not be provided to individual members of a group or to individuals insured under multiple lives coverage issued to a single applicant unless the coverage is marketed to these individuals. The illustration furnished an applicant for a group life insurance policy or policies issued to a single applicant on multiple lives may be either an individual or composite illustration representative of the coverage on the lives of members of the group or the multiple lives covered.
- d) Potential enrollees of non-term group life subject to this Part shall be furnished a quotation with the enrollment materials. The quotation shall show potential policy values for sample ages and policy years on a guaranteed and non-guaranteed basis appropriate to the group and the coverage. This quotation shall not be considered an illustration for purposes of this Part, but all information provided shall be consistent with the illustrated scale. A basic illustration shall be provided at delivery of the certificate to enrollees for non-term group life who enroll for more than the minimum premium necessary to provide pure death benefit protection. In addition, the insurer shall make a basic illustration available to any non-term group life enrollee who requests it.

#### **Section 1406.50 Standards for Basic Illustrations**

- a) Format. A basic illustration shall conform with the following requirements:
  - 1) The illustration shall be labeled with the date on which it was prepared.
  - 2) Each page, including any explanatory notes or pages, shall be numbered and show its relationship to the total number of pages in the illustration (e.g., the fourth page of a seven-page illustration shall be labeled "page 4 of 7 pages").
  - 3) The assumed dates of payment receipt and benefit pay-out within a policy year shall be clearly identified.
  - 4) If the age of the proposed insured is shown as a component of the tabular detail, it shall be issue age plus the numbers of years the policy is assumed to have been in force.
  - 5) The assumed payments on which the illustrated benefits and values are based shall be identified as premium outlay or contract premium, as applicable. For policies that do not require a specific contract premium, the illustrated payments shall be identified as premium outlay.
  - 6) Guaranteed death benefits and values available upon surrender, if any, for the illustrated premium outlay or contract premium shall be shown and clearly labeled guaranteed.
  - 7) If the illustration shows any non-guaranteed elements, they cannot be based on a scale more favorable to the policy owner than the insurer's illustrated scale at any duration. These elements shall be clearly labeled non-guaranteed.

- 8) The guaranteed elements, if any, shall be shown before corresponding non-guaranteed elements and shall be specifically referred to on any page of an illustration that shows or describes only the non-guaranteed elements (e.g., "see page one for guaranteed elements").
  - 9) The account or accumulation value of a policy, if shown, shall be identified by the name this value is given in the policy being illustrated and shown in close proximity to the corresponding value available upon surrender.
  - 10) The value available upon surrender shall be identified by the name this value is given in the policy being illustrated and shall be the amount available to the policy owner in a lump sum after deduction of surrender charges, policy loans and policy loan interest, as applicable.
  - 11) Illustrations may show policy benefits and values in graphic or chart form in addition to the tabular form.
  - 12) Any illustration of non-guaranteed elements shall be accompanied by a statement indicating that:
    - A) The benefits and values are not guaranteed;
    - B) The assumptions on which they are based are subject to change by the insurer; and
    - C) Actual results may be more or less favorable.
  - 13) If the illustration shows that the premium payer may have the option to allow policy charges to be paid using non-guaranteed values, the illustration must clearly disclose that a charge continues to be required and that, depending on actual results, the premium payer may need to continue or resume premium outlays. Similar disclosure shall be made for premium outlay of lesser amounts or shorter durations than the contract premium. If a contract premium is due, the premium outlay display shall not be left blank or show zero unless accompanied by an asterisk or similar mark to draw attention to the fact that the policy is not paid up.
  - 14) If the applicant plans to use dividends or policy values, guaranteed or non-guaranteed, to pay all or a portion of the contract premium or policy charges, or for any other purpose, the illustration may reflect those plans and the impact on future policy benefits and values.
- b) Narrative Summary. A basic illustration shall include the following:
- 1) A brief description of the policy being illustrated, including a statement that it is either an individual or group life insurance policy;
  - 2) A brief description of the premium outlay or contract premium, as applicable, for the policy. For a policy that does not require payment of a specific contract premium, the illustration shall show the premium outlay that must be paid to guarantee coverage for the term of the contract, subject to maximum premiums allowable to qualify as a life insurance policy under the applicable provisions of the Internal Revenue Code;

- 3) A brief description of any policy features, riders or options, guaranteed or non-guaranteed, shown in the basic illustration and the impact they may have on the benefits and values of the policy;
  - 4) Identification and a brief definition of column headings and key terms used in the illustration; and
  - 5) A statement containing in substance the following: "This illustration assumes that the currently illustrated non-guaranteed elements will continue unchanged for all years shown. This is not likely to occur, and actual results may be more or less favorable than those shown."
- c) Numeric Summary.
- 1) Following the narrative summary, a basic illustration shall include a numeric summary of the death benefits and values and the premium outlay and contract premium, as applicable. For a policy that provides for a contract premium, the guaranteed death benefits and values shall be based on the contract premium. This summary shall be shown for at least policy years 5, 10 and 20 and at age 70, if applicable, on the three bases shown below. For multiple life policies the summary shall show policy years 5, 10, 20 and 30.
    - A) Policy guarantees;
    - B) Insurer's illustrated scale;
    - C) Insurer's illustrated scale used but with the non-guaranteed elements reduced as follows:
      - i) Dividends at 50% of the dividends contained in the illustrated scale used;
      - ii) Non-guaranteed credited interest at rates that are the average of the guaranteed rates and the rates contained in the illustrated scale used;
      - iii) All non-guaranteed charges, including but not limited to term insurance charges, mortality and expense charges, at rates that are the average of the guaranteed rates and the rates contained in the illustrated scale used.
  - 2) In addition, if coverage would cease prior to policy maturity or age 100, the year in which coverage ceases shall be identified for each of the 3 bases.
- d) Statements. The following statements shall be included on the same page as the numeric summary and signed by the applicant, or the policy owner in the case of an illustration provided at time of delivery, as required by this Part.
- 1) A statement to be signed and dated by the applicant or policy owner reading as follows: "I have received a copy of this illustration and understand that this illustration assumes that the current illustrated non-guaranteed elements will continue unchanged for all years shown. This is not likely to occur, and actual results may be more or less favorable than those shown."
  - 2) A statement to be signed and dated by the insurance producer or other authorized representative of the insurer reading as follows: "I have informed the

applicant or policy owner that this illustration assumes that the currently illustrated non-guaranteed elements will continue unchanged for all years shown. This is not likely to occur, and actual results may be more or less favorable than those shown."

- e) Tabular Detail.
  - 1) A basic illustration shall include the following for at least each policy year from 1 to 10 and for every fifth policy year thereafter ending at age 100, policy maturity or final expiration; and except for term insurance beyond the 20<sup>th</sup> year, for any year in which the premium outlay and contract premium, if applicable, is to change.
    - A) The premium outlay and mode the applicant plans to pay and the contract premium, as applicable;
    - B) The corresponding guaranteed death benefit, as provided in the policy; and
    - C) The corresponding guaranteed value available upon surrender, as provided in the policy.
  - 2) For a policy that provides for a contract premium, the guaranteed death benefit and value available upon surrender shall correspond to the contract premium.
  - 3) Non-guaranteed elements may be shown if described in the contract. In the case of an illustration for a policy on which the insurer intends to credit terminal dividends, they may be shown if the insurer's current practice is to pay terminal dividends. If any non-guaranteed elements are shown they must be shown at the same durations as the corresponding guaranteed elements, if any. If no guaranteed benefit or value is available at any duration for which a non-guaranteed benefit or value is shown, a zero shall be displayed in the guaranteed column.

#### **Section 1406.60 Standards for Supplemental Illustrations**

- a) A supplemental illustration may be provided so long as:
  - 1) It is appended to, accompanied by or preceded by a basic illustration that complies with this Part;
  - 2) The non-guaranteed elements shown are not more favorable to the policyowner than the corresponding elements based on the scale used in the basic illustration;
  - 3) It contains the same statement required of a basic illustration that non-guaranteed elements are not guaranteed; and
  - 4) For a policy that has a contract premium, the contract premium underlying the supplemental illustration is equal to the contract premium shown in the basic illustration. For policies that do not require a contract premium, the premium outlay underlying the supplemental illustration shall be equal to premium outlay shown in the basic illustration.
- b) The supplemental illustration shall include a notice referring to the basic illustration for guaranteed elements and other important information.

## Section 1406.70 General Rules and Prohibitions

- a) An illustration used in the sale of an individual or group life insurance policy shall satisfy the applicable requirements of this Part, be clearly labeled "Life Insurance Illustration" and contain the following basic information:
  - 1) Name of insurer;
  - 2) Name and business address of insurance producer or insurer's authorized representative, if any;
  - 3) Name, age and sex of proposed insured, except where a composite illustration is permitted pursuant to this Part;
  - 4) Underwriting or rating classification upon which the illustration is based;
  - 5) Generic name of policy, the insurer product name, if different, and form number;
  - 6) Initial death benefit; and
  - 7) Dividend option election or application of non-guaranteed elements, if applicable.
- b) When using an illustration in the sale of an individual or group life insurance policy, an insurer or its insurance producers or other authorized representatives shall not:
  - 1) Represent the policy as anything other than a life insurance policy;
  - 2) Use or describe non-guaranteed elements in a manner that is misleading, or has the capacity or tendency to mislead;
  - 3) State or imply that the payment or amount of non-guaranteed elements is guaranteed;
  - 4) Use an illustration that does not comply with the requirements of this Part;
  - 5) Use an illustration that at any policy duration depicts policy performance more favorable to the policyowner than that produced by the illustrated scale of the insurer whose policy is being illustrated;
  - 6) Provide an applicant with an incomplete illustration;
  - 7) Represent in any way that premium payments will not be required for each year of the policy in order to maintain the illustrated death benefits, unless that is the fact;
  - 8) Use the term "vanish" or "vanishing premium," or a similar term that implies the policy becomes paid up, to describe a plan for using non-guaranteed elements to pay a portion of future premiums;
  - 9) Except for policies that can never develop nonforfeiture values, use an illustration that is "lapse-supported"; or
  - 10) Use an illustration that is not "self-supporting."

- c) If an interest rate used to determine the illustrated non-guaranteed elements is shown, it shall not be greater than the earned interest rate underlying the disciplined current scale.

#### **Section 1406.80 Delivery of Illustrations and Record Retention**

- a) If a basic illustration:
  - 1) Is used by an insurance producer or other authorized representative of the insurer in the sale of a life insurance policy and the policy is applied for as illustrated, a copy of that illustration, signed in accordance with Section 1406.50(d)(2), shall be submitted to the insurer at the time of policy application. A copy also shall be provided to the applicant.
  - 2) Is revised due to the policy being issued other than as applied for, a revised basic illustration conforming to the policy as issued shall be sent with the policy. The revised illustration shall conform to the requirements of this Part, shall be labeled "Revised Illustration" and shall be signed and dated by the applicant or policyowner and insurance producer or other authorized representative of the insurer no later than the time the policy is delivered. A copy shall be provided to the insurer and the policyowner.
- b) If no illustration:
  - 1) Is used by an insurance producer or other authorized representative in the sale of a life insurance policy or if the policy is applied for other than as illustrated, the insurance producer or representative shall certify to that effect in writing on a form provided by the insurer. On the same form the applicant shall acknowledge that no illustration conforming to the policy applied for was provided and shall further acknowledge an understanding that an illustration conforming to the policy as issued will be provided no later than at the time of policy delivery. This form shall be submitted to the insurer at the time of policy application.
  - 2) Is used at the time of application, basic illustration conforming to the policy as issued shall be sent with the policy and signed by the insurance producer and the policyowner no later than the time the policy is delivered. A copy shall be provided to the insurer and the policyowner.
- c) If the basic illustration or revised illustration is sent to the applicant or policyowner by mail from the insurer, it shall include instructions for the applicant or policyowner to sign the duplicate copy of the numeric summary page of the illustration for the policy issued and return the signed copy to the insurer. The insurer's obligation under this subsection shall be satisfied if it can demonstrate that it has made a diligent effort to secure a signed copy of the numeric summary page. The requirement to make a diligent effort shall be deemed satisfied if the insurer includes in the mailing a self-addressed postage pre-paid envelope with instructions for the return of the signed numeric summary page.
- d) A copy of the basic illustration and a revised basic illustration, if any, signed as applicable, along with any certification that either no illustration was used or that the policy was applied for other than as illustrated, shall be retained by the insurer until 3 years after the policy is no longer in force. A copy need not be retained if no policy is issued.

#### **Section 1406.90 Annual Report – Notice to Policyowners**

- a) In the case of a policy designated as one for which illustrations will be used, the insurer shall provide each policyowner with an annual report on the status of the policy that shall contain at least the following information:

- 1) For universal life policies, the report shall include the following:
  - A) The beginning and end date of the current report period;
  - B) The policy value at the end of the previous report period and at the end of the current report period;
  - C) The total amounts that have been credited or debited to the policy value during the current report period, identifying each by type (e.g., interest, mortality, expense and riders);
  - D) The current death benefit at the end of the current report period on each life covered by the policy;
  - E) The net cash surrender value of the policy as of the end of the current report period;
  - F) The amount of outstanding loans, if any, as of the end of the current report period; and
  - G) Either:
    - i) For fixed premium policies, if, assuming guaranteed interest, mortality and expense loads and continued scheduled premium payments, the policy's net cash surrender value is such that it would not maintain insurance in force until the end of the next reporting period, a notice to this effect shall be included in the report; or
    - ii) For flexible premium policies, if, assuming guaranteed interest, mortality and expense loads, the policy's net cash surrender value will not maintain insurance in force until the end of the next reporting period unless further premium payments are made, a notice to this effect shall be included in the report.
- 2) For all other policies, where applicable:
  - A) Current death benefit;
  - B) Annual contract premium;
  - C) Current cash surrender value;
  - D) Current dividend;
  - E) Application of current dividend; and
  - F) Amount of outstanding loan.
- 3) Insurers writing life insurance policies that do not build nonforfeiture values shall only be required to provide an annual report with respect to these policies for those years when a change has been made to non-guaranteed policy elements by the insurer.

- b) If the annual report does not include an in force illustration, it shall contain the following notice displayed prominently: "**IMPORTANT POLICY OWNER NOTICE:** You should consider requesting more detailed information about your policy to understand how it may perform in the future. You should not consider replacement of your policy or make changes in your coverage without requesting a current illustration. You may annually request, without charge, such an illustration by calling [insurer's phone number], writing to [insurer's name] at [insurer's address] or contacting your insurance producer. If you do not receive a current illustration of your policy within 30 days from your request, you should contact the Department of Insurance." The insurer may vary the sequential order of the methods for obtaining an in force illustration.
- c) Upon the request of the policyowner, the insurer shall furnish an in force illustration of current and future benefits and values based on the insurer's present illustrated scale. This illustration shall comply with the requirements of Section 1406.70(a) through (b) and Section 1406.50(a) and (e) of this Part. No signature or other acknowledgement of receipt of this illustration will be required.
- d) If an adverse change in non-guaranteed elements that could affect the policy has been made by the insurer since the last annual report, the annual report shall contain a notice of that fact and the nature of the change will be prominently displayed.

(Source: Amended at 22 Ill. Reg. 20121, effective November 9, 1998)

#### **Section 1406.100 Annual Certifications**

- a) The Board of Directors of each insurer shall appoint one or more illustration actuaries.
- b) The illustration actuary shall certify that the disciplined current scale used in illustrations is in conformity with the Actuarial Standard of Practice No. 24, Compliance with the NAIC Life Insurance Illustrations Model Regulation promulgated by the Actuarial Standards Board (ASB), (1720 I Street, N.W., 7th Floor, Washington, DC 20006), and that the illustrated scales used in insurer-authorized illustrations meet the requirements of this Part.
- c) The illustration actuary shall:
  - 1) Be a member of the American Academy of Actuaries;
  - 2) Be familiar with the standard of practice regarding life insurance policy illustrations;
  - 3) Not have been found by the Director, following appropriate notice and hearing, to have:
    - A) Violated any provision of, or any obligation imposed by, the insurance law or other law in the course of his or her dealings as an illustration actuary;
    - B) Been found guilty of fraudulent or dishonest practices;
    - C) Demonstrated his or her incompetence, lack of cooperation, or untrustworthiness to act as an illustration actuary; or
    - D) Resigned or been removed as an illustration actuary within the past 5 years as a result of acts or omissions indicated in any adverse report on examination or as a result of a failure to adhere to generally acceptable actuarial standards;

- 4) Not fail to notify the Director of any action taken by a commissioner of another state similar to that identified under subsection (c)(3) of this Section;
  - 5) Disclose in the annual certification whether, since the last certification, a currently payable scale applicable for business issued within the previous 5 years and within the scope of the certification has been reduced for reasons other than changes in the experience factors underlying the disciplined current scale. If non-guaranteed elements illustrated for new policies are not consistent with those illustrated for similar in force policies, this must be disclosed in the annual certification. If non-guaranteed elements illustrated for both new and in force policies are not consistent with the non-guaranteed elements actually being paid, charged or credited to the same or similar forms, this must be disclosed in the annual certification; and
  - 6) Disclose in the annual certification the method used to allocate overhead expenses for all illustrations:
    - A) Fully allocated expenses;
    - B) Marginal expenses; or
    - C) A generally recognized expense table based on fully allocated expenses representing a significant portion of insurance companies and approved by the National Association of Insurance Commissioners or by the Director.
- d) The illustration actuary shall:
- 1) File a certification with the insurer's Board of Directors:
    - A) Annually for all policy forms for which illustrations are used; and
    - B) Before a new policy form is illustrated.
  - 2) If an error in a previous certification is discovered, the illustration actuary shall notify the insurer's Board of Directors promptly.
- e) If an illustration actuary is unable to certify the scale for any policy form illustration the insurer intends to use, the actuary shall notify the Board of Directors of the insurer promptly of his or her inability to certify.
- f) An annual certification shall be filed with the Director by the insurer by no later than December 31 of each year for the 12 months immediately preceding the certification date itself. For the initial 1998 filing, the insurer shall provide a certification for the calendar months which follow the effective date of this Part. The insurer shall submit the actuarial certification as required by subsection (d) of this Section to the Life, Accident/Health Compliance Unit of the Illinois Department of Insurance. A responsible officer of the insurer, other than the illustration actuary, shall certify:
- 1) That the illustration formats meet the requirements of this Part and that the scales used in insurer-authorized illustrations are those scales certified by the illustration actuary; and

- 2) That the insurer has provided its insurance producers with information about the expense allocation method used by the insurer in its illustrations and disclosed as required by subsection (c)(6) of this Section.
- g) If an insurer changes the illustration actuary responsible for all or a portion of the insurer's policy forms, the insurer shall notify the Director of that fact promptly and disclose the reason for the change.

(Source: Amended at 22 Ill. Reg. 20121, effective November 9, 1998)

#### **Section 1406.110 Penalties**

In addition to any penalties authorized by the Illinois Insurance Code, an insurer or insurance producer who violates a requirement of this Part may be in violation of other State laws or regulations.
