III. METHODOLOGY

The Market Conduct examination places emphasis on evaluating an insurer's systems and procedures in dealing with insureds and claimants.

The following categories are the general areas examined:

1. Risk Selection
2. Underwriting
3. Claims
4. Complaints

The review of these categories is accomplished through examination of individual underwriting and claim files, written interrogatories, interviews with company personnel, analysis of policy forms and endorsements, and verification of computer rating accuracy. Each of these categories is examined for compliance with Departmental Rules and Regulations and applicable state law.

The report concerns itself with improper practices performed with such frequency as to indicate general business practices. Individual files criticized are identified and communicated to the insurer but not cited in the report if not indicative of a general trend, except if there were underpayments and/or overpayments in claim surveys or undercharges and/or overcharges in underwriting surveys.

The following methods were used to obtain the required samples to assure methodical selection.

Risk Selection

Cancellations and nonrenewals were requested on the basis of the effective date of the cancellation or nonrenewal falling within the period under examination. They were reviewed for compliance with statutory requirements, the accuracy and validity of reasons given, and for any possible discrimination.

Underwriting

New files were selected based on the inception date falling within the period under examination. Renewals were selected based on renewal date falling within the period under examination. New policies and renewals were reviewed for rating accuracy, use of filed rates, use of filed forms, compliance with company underwriting guidelines and to insure that the coverage provided was as requested.

Claims

Claims were requested based on the settlement occurring within the period under examination. All claims were reviewed for compliance with policy provisions and applicable sections of the Illinois Insurance Code (215 ILCS 5/1 et seq.) and Department Rule Part 919 (50 Ill. Adm. Code 919).

Complaints

Complaints requested were those received in calendar year 2011.

There were two (2) Professional Liability nonrenewals. In both notices (100%), the reason for the nonrenewal was "Agency no longer represents [X]." This is a violation of 215 ILCS 5/141.01.

"No company authorized to do business in Illinois shall cancel, terminate or refuse to renew any policy on the ground that the company's contract with the agent through whom such policy was obtained has been terminated."

A Class Criticism is applicable due to the error percentage - two non-renewals in sample; two violations.

There were no Liquor Liability nonrenewals.
