III. METHODOLOGY

The market conduct examination places emphasis on an insurer's systems and procedures used in dealing with insureds and claimants. The period under review was generally September 1, 2015 through August 31, 2016. The following categories were the general areas examined:

- A. Operations and Management
- B. Complaint Handling
- C. Marketing and Sales
- D. Producer Review
- E. Risk Selection
- F. Underwriting and Rating
- G. Claims

The review of these categories was accomplished through examination of individual policy and claim files, Company procedures, written interrogatories and interviews with Company personnel. Each of these categories was examined for compliance with Department of Insurance rules and regulations, and applicable state laws.

Criticisms were provided to the Company addressing violations discovered in the review processes. All valid criticisms were incorporated into this report.

The following methods were used to obtain the required samples and to assure a statistically accurate and methodical selection. The samples were developed from Company-generated data. The sample size was based on the most recent NAIC *Market Regulation Handbook*. Random samples were generated using Audit Command Language (“ACL”) software and the selected samples were provided to the Company for retrieval.

Operations and Management

The review of the Company’s operations and management is designed to determine how the Company operates. Examiners reviewed both publicly available documents, such as prior market conduct examinations and annual statements, as well as internal documents such as Company procedures and internal audit reports.

Complaint Handling

Department of Insurance Complaints (“DOI”) and Consumer (“Non-DOI”) complaints for the period March 1, 2015 through August 31, 2016, were reviewed for compliance with applicable state laws and Company guidelines.

DOI Complaints – The population request for this category consisted of complaints received by the Department during the experience period. The Company’s complaint registry was reconciled with the individual file information and the DOI records to determine the completeness and accuracy of the data recorded. Each complaint file, along with the underlying claim or underwriting file, was reviewed for compliance with regulatory requirements.

Non-DOI Complaints – The population request for this category consisted of complaints received by the Company directly from consumers during the experience period. The Company’s complaint registry was reconciled with the individual file information to determine the completeness and accuracy of the data recorded. Each complaint file, along with the underlying claim or underwriting file, was reviewed for compliance with regulatory requirements.

Marketing and Sales

The Marketing and Sales portion of the examination is designed to evaluate the representations made by the Company about its products or services. The items requested for this category consisted of all sales, advertising, producer training and producer communications created during the examination period. This review is typically based on judgmental sampling techniques.

Producer Review

Producer licensing and terminations were reviewed for compliance with statutory requirements. Samples were selected based on transactions occurring during the period under examination.

Risk Selection

Cancellations and nonrenewals were reviewed for compliance with statutory requirements and to ensure reasons for termination were valid and not unfairly discriminatory. Samples were selected based on transactions occurring during the period under examination.

Underwriting and Rating

The underwriting sample consisted of new and renewal business and was selected based on the inception or renewal date occurring during the period under examination. Policies were reviewed for rating accuracy, use of filed rates, use of filed forms, and compliance with Company underwriting guidelines.

Claims

Claims were selected based on settlement occurring within the period under examination. Claims were reviewed for compliance with policy contracts and endorsements, applicable sections of the Illinois Insurance Code (215 ILCS 5/1 *et seq.*) and the Illinois Administrative Code (50 Ill. Adm. Code 101 *et seq.*). Reviews were conducted of both claims paid and those closed without payment (“CWP”).
