Dear Ms. Neuman:

NCMIC Insurance Company (NCMIC) currently has on file with the Illinois Department of Insurance a claims made and occurrence professional liability rating manual for our Chiropractic Malpractice Program. The most recent Rule filing was approved by you on 11/01/2006. We also had a corresponding Form filing that you approved on 04/10/2007. In the Form filing, we were required to create the following new Illinois specific endorsements:

Please see the Rating Manual Changes document that outlines all changes to the form names and numbers. The only other change is an updated edition date (04/07) for the rating manual.

If you have any questions or need any additional information regarding this filing please feel free to contact me directly. I thank you in advance for your attention to this matter.

Section I – General Information Applying to Both Claims Made and Occurrence Policies

Policies

NCMIC markets two types of policies identified below:

1. Claims Made (Form CM2006 05/06)
2. Occurrence (Form MP2006 05/06)

Insureds

NCMIC has two types of insureds. The two types of insureds are listed below:

1. Individual chiropractor (DC)
2. Professional Entities

Policy Period

The policy period shall be for a one-year term.

Minimum Premium

NCMIC does not have a minimum premium requirement.

Waiver of Additional Premiums

Additional premiums, up to $10.00, for endorsements effective subsequent to the inception date of the policy will be waived.

Whole Dollar Premium Rounding Rule

All premiums are rounded to the nearest whole dollar.

Territorial Definitions

The location of the practice determines the territory. If more than one location of practice exists, rate in the territory where doctor has at least 51% of his/her practice. If the doctor does not have 51% of his/her practice in a single territory, then rate in the territory in which the doctor has the greatest percentage of his practice. If multiple territories have equal percentage of practice, then rate in the higher rated territory.

Premium Payment Options

Annual payment option – Full premium payment required.

Semi-Annual payment option – 50% of premium payment required along with $5.00 installment fee.

Deleted: 5

Deleted: 6

Quarterly payment option – 25% of premium payment required along with $5.00 installment fee with the remaining payments of 25% each due at 3, 6 and 9 months after policy inception. This option is only available for premiums equal to or greater than $500.00.

Monthly payment option through premium finance – 15% of premium payment required for down payment, only available for premiums equal to or greater than $750.00.

There is no interest charged for utilizing the premium payment options. Additional premiums for policy changes occurring during the current policy period shall be computed pro rata of the annual premium. If there are no remaining installments, additional premium resulting from changes in coverage may be due immediately as a separate transaction.

Renewals

A policy may be continued for successive terms upon payment of the required premium to the company on or before the inception date of each successive term. The continuation premium shall be based upon the premium in effect on renewal date. The applicable forms and endorsements must be made a part of the policy. Additional premiums for policy changes occurring during the current policy period shall be computed pro rata of the annual premium.

Cancellation

A policy may be canceled by the insured by mailing to the Company written notice stating when such cancellation shall be effective. This policy will remain in full force and effect until its regular anniversary unless the policy is canceled sooner by the Company or the insured.

Premium Refund

If a policy cancels for any reason during the policy term, the insured will receive a pro-rata refund.

If an insured switches from our occurrence policy to our claims made policy, any refund will be computed pro-rata.

Section III – Premium Development

A. FORMULAS FOR CLAIMS MADE PREMIUM DEVELOPMENT

Listed below are the formulas used to determine a chiropractor's claims made policy premium.

STEP 1 – Calculate Base Premium

Base Rate

Base rate is our 100/300 limit of liability. The charges are: Territory 1- $2232.00
Territory 2- $2443.00
Territory 3- $2150.00

Territory 1 - Cook, DuPage, Lake, Will, Kendall, Kane and McHenry Counties
Territory 2 - Monroe, St. Clair, Madison, Clinton, Washington, Randolph and Jersey Counties
Territory 3 - Remainder of state

Base Premium Developed

Base Rate x ILF = Base Premium

Base premium is determined by multiplying the base rate by the increased limits factor of the appropriate limit of liability chosen.

ILFs (Increased Limits Factors)

200/600	1.159
250/750	1.215
500/1000	1.408
1000/3000	1.590
2000/4000	1.741

STEP 2 – Calculate 1st yr., 2nd yr., 3rd yr., 4th yr. or Mature Claims Made Base Premium

Base premium x (1-4 yr. or mature) retro factor = (1-4 yr. or mature) claims made base premium

Claims Made Premium Developed

The (1-4 yr. or mature) claims made premiums are then calculated by multiplying the base premium by the appropriate years (1-4 yr. or mature) retro factor. The retroactive date is the date of reference used to determine which retro factor is to apply. The following rules will apply:

Definition Retroactive Date – Date on a claims made liability policy which triggers the beginning period of insurance coverage. If the chiropractor is purchasing insurance for the first time, the retroactive date will be the effective date. Any claim made during the policy period will not be covered if the injury occurred before the retroactive date.

Eligibility for 1st year claims made rate – When a policy is written where the retroactive date and effective date are the same, we will multiply the first year claims made retro factor by the base premium.

Eligibility for 2nd year claims made rate – When a policy is written during the first calendar year after the retroactive date we will multiply the second year claims made retro factor by the base premium.

Eligibility for 3rd year claims made rate – When a policy is written during the second calendar year after the retroactive date, we will multiply the third year claims made retro factor by the base premium.

Eligibility for 4th year claims made rate – When a policy is written during the third calendar year after the retroactive date, we will multiply the fourth year claims made retro factor by the base premium.

Eligibility for Mature claims made rate – When a policy is written during the fourth calendar year after the retroactive date or anytime thereafter, we will use the mature claims made rate. The retro factor is 1.00.

Claims Made Rate Retro Factors

2	0.655
3	0.900
4	0.975
Mature	1.000

C. SCHEDULE RATING APPLICABLE TO BOTH CLAIMS MADE AND OCCURRENCE COVERAGES

Deleted: 5

Deleted: 6

NCMIC Insurance Company may utilize the following schedule of debits to modify the premiums for certain insureds reflecting the unique exposure present in these risks. These insureds qualify for schedule rating because of factors not contemplated in the filed rate structure of the company.

The maximum debit to be applied to recognize risk characteristics that are not reflected in an otherwise applicable rate is 40%. Any debits assigned under this plan are subject to annual review. All premium modifications will be noted and documented in the individual insured's file with any premium credit and/or debit having the approval of the Underwriting Department.

NCMIC Insurance Company will modify premiums giving consideration to the following exposure characteristics and rating characteristics of a risk:

	CREDIT	DEBIT
Unusual risk characteristics (Member of multidisciplinary group, multiple professional discipline or board complaints, loss of license)	XXXX	40%
Claim history debit (Based on underwriting review of frequency and severity of the insured's claims history)	XXXX	40%

Section IV – Extended Reporting Coverages For Claims Made Coverage

Basic Reporting Extension

This allows, under a claims made policy, for the reporting of claims arising from a medical incident which occurs on or after the retroactive date and prior to the end of the policy period. The extended reporting coverage is for sixty (60) days after the expiration of the policy. This coverage is provided free of charge. The 60-day Basic Extended Reporting Period does not apply if the insured purchases any subsequent insurance that replaces in whole or in part the coverage provided by this policy.

Illinois Extended Reporting Endorsement (Tail Coverage) Form 14CM-2005 04/07

Deleted: 06-2014 05/06

If a claims made policy is canceled or non-renewed for any reason including non-payment of premium whether by the company or at the insured's request, the named insured may elect to have an endorsement issued providing an extended reporting period upon payment of an additional charge as follows:

Tail factors apply to mature claims made expiring annual premium.

Number of Years Since Retro Date	Tail Factor (Factor to apply to mature claims made expiring annual premium)
1	0.654
2	0.975

Deleted: 5

Deleted: 6

3	1.062
4	1.082

Definition of Tail Coverage – This term has been used to describe the exposure that exists between the retroactive date and expiration date of the policy and the coverage that may be purchased to cover that exposure. On "claims made" forms, tail coverage may be purchased to extend the period for reporting covered claims beyond the policy period.

Extended Reporting Endorsement (Tail Coverage)

Tail Coverage Rules:

1. Purchase of tail coverage must be within sixty (60) days after the cancellation or expiration of the insured's NCMIC claims made policy.
   Example:
   Policy expires 6-1-05. The extended reporting endorsement (tail coverage) must be purchased by 7-30-05.

2. The extended reporting endorsement (tail coverage) will never be written to be effective before the insured's most recent NCMIC claims made policy retroactive date.
   Example:
   The insured's claims made policy retroactive date is 7-1-05 and expiration date is 10-1-05. The extended reporting endorsement (tail coverage) charged at the first year tail coverage rate would be written to cover the time period from 7-1-05 to 10-1-05.

3. The extended reporting endorsement (tail coverage) will be pro-rated for partial years.
   Example:
   An insured has a malpractice insurance policy with us issued with a $1,000,000/$3,000,000 limit of liability. The insured has a retroactive date of 1-1-04 and the insurance policy is canceled with us on 3-28-05. The charge for the insured's tail coverage premium has been computed below.

   a. You first must determine how many days between the retroactive date and the cancellation effective date.
   b. Determine the MATURE claims made base premium for the policy limits the chiropractor is requesting to purchase.

The calculation is as follows:

Base rate $1,788 x (Increased limits factor) 1.75 = mature claims made base premium $3,129.00.

   c. Determine how many years, or days, the retroactive date is from the policy termination (cancellation or expiration) date.

Retroactive date 1-1-04 to full year policy renewal date of 1-1-05.

Deleted: 5

Deleted: 6

1 or 2 or 3 or 4+ years

Mature claims made base premium		$3,129
Tail factor for 1 year	x	0.654
Extended Reporting Period Premium 1 yr.	=	$2,046.00

d. Count the remaining number of days left until the policy termination date.

1-1-05 to 3-28-05 is 87 days.

e. Pro-rate the remaining number of days to the policy cancellation date.

Partial year rates will be interpolated using the actual number of days covered on a claims made basis.

The calculation requires first determining the premium for two full year of tail coverage.

Mature claims made base premium		$3,129
Tail factor for 2 years	x	0.975
Extended Reporting Period Premium 2 yrs.	=	$3,051.00

Calculation:

Extended Reporting Period Premium 2 yrs. ($3,051.00) – Extended Reporting Period Premium 1 yr. ($2,046.00) = $1,005.00

Number of days	87
Number of days in year	365

f. Calculate: (87 / 365) x $1005.00 = $240.00

Extended Reporting Period Premium 1 yr. $2,046.00 + $240.00 = $2,286.00

4. Tail coverage is priced at the rules and rates in effect as of the most recent effective date of the policy to which the extended reporting period endorsement is attached.

5. Tail coverage is free of charge if a doctor dies and will be provided to the insured's estate upon notification of the insured's death. Tail coverage is free of charge if a doctor becomes permanently disabled and can no longer practice as a chiropractor. Tail coverage is free of charge if a doctor retires from practice after five (5) years of continuous coverage under the NCMIC claims made policy and is at least 55 years old. The endorsement will date back to the current claims made policy retroactive date.

Deleted: 5

Deleted: 6

6. After ten (10) years of continuous coverage under the claims made policy, if the policy terminates for any reason, including non-payment of premium, the tail coverage will be free of charge.

6. Risk Management Discount

We offer risk management discounts for insureds that complete NCMIC Board certified programs. The risk management discount will only be applied to the doctor's base premium. The maximum total risk management discount available per policy period is 15%. The discount will only be applied on the insured's renewal premium.

Maximum Discounts Available

The maximum risk management and claims free discounts that can be obtained are 35%. However, the maximum risk management and claims free discounts available for any insured who is also receiving a premium discount will be the actual risk management and claims free discounts (up to 35%) multiplied by percentage of discounted premium paid by the policyholder.

Example: Assume the full-time base rate is $1,500 and a doctor is receiving a faculty discount of 50%. Also assume the doctor is eligible for a 20% claims free discount and a 15% risk management discount. In this example, the maximum risk management and claims free discount this doctor is entitled to is 17.5%. Premium to be paid is calculated as follows:

$1,500 x .50 =	$750 (faculty base premium)
(20% + 15%) x .50 =	17.5% (total discounts allowed)
$750 x 17.5% =	131.25 (discount amount)
$750 – 131.25 =	$618.75 (premium to be paid)

A. FORMULAS FOR CLAIMS MADE PREMIUM DEVELOPMENT

Listed below are the formulas used to determine a chiropractor's claims made policy premium.

STEP 1 – Calculate Base Premium

Base Rate

Base rate is our 100/300 limit of liability. The charges are: Territory 1- $2232.00
Territory 2- $2443.00
Territory 3- $2150.00

Territory 1 - Cook, DuPage, Lake, Will, Kendall, Kane and McHenry Counties
Territory 2 - Monroe, St. Clair, Madison, Clinton, Washington, Randolph and Jersey Counties
Territory 3 - Remainder of state

STEP 2 – Calculate 1st yr., 2nd yr., 3rd yr., 4th yr. or Mature Claims Made Base Premium

Base premium x (1-4 yr. or mature) retro factor = (1-4 yr. or mature) claims made base premium

Claims Made Premium Developed

The (1-4 yr. or mature) claims made premiums are then calculated by multiplying the base premium by the appropriate years (1-4 yr. or mature) retro factor. The retroactive date is the date of reference used to determine which retro factor is to apply. The following rules will apply:

Definition Retroactive Date – Date on a claims made liability policy which triggers the beginning period of insurance coverage. If the chiropractor is purchasing insurance for the first time, the retroactive date will be the effective date. Any claim made during the policy period will not be covered if the injury occurred before the retroactive date.

Eligibility for 1st year claims made rate – When a policy is written where the retroactive date and effective date are the same, we will multiply the first year claims made retro factor by the base premium.

Eligibility for 2nd year claims made rate – When a policy is written during the first calendar year after the retroactive date we will multiply the second year claims made retro factor by the base premium.

Eligibility for 3rd year claims made rate – When a policy is written during the second calendar year after the retroactive date, we will multiply the third year claims made retro factor by the base premium.

Eligibility for 4th year claims made rate – When a policy is written during the third calendar year after the retroactive date, we will multiply the fourth year claims made retro factor by the base premium.

Eligibility for Mature claims made rate – When a policy is written during the fourth calendar year after the retroactive date or anytime thereafter, we will use the mature claims made rate. The retro factor is 1.00.

NCMIC Insurance Company may utilize the following schedule of debits to modify the premiums for certain insureds reflecting the unique exposure present in these risks. These insureds qualify for schedule rating because of factors not contemplated in the filed rate structure of the company.

The maximum debit to be applied to recognize risk characteristics that are not reflected in an otherwise applicable rate is 40%. Any debits assigned under this plan are subject to annual review. All premium modifications will be noted and documented in the individual insured's file with any premium credit and/or debit having the approval of the Underwriting Department.

NCMIC Insurance Company will modify premiums giving consideration to the following exposure characteristics and rating characteristics of a risk:

	CREDIT	DEBIT
Unusual risk characteristics (Member of multidisciplinary group, multiple professional discipline or board complaints, loss of license)	XXXX	40%
Claim history debit (Based on underwriting review of frequency and severity of the insured's claims history)	XXXX	40%

Section IV – Extended Reporting Coverages For Claims Made Coverage

Basic Reporting Extension

This allows, under a claims made policy, for the reporting of claims arising from a medical incident which occurs on or after the retroactive date and prior to the end of the policy period. The extended reporting coverage is for sixty (60) days after the expiration of the policy. This coverage is provided free of charge. The 60-day Basic Extended Reporting Period does not apply if the insured purchases any subsequent insurance that replaces in whole or in part the coverage provided by this policy.

Illinois Extended Reporting Endorsement (Tail Coverage) Form 14CM-2005 04/07

If a claims made policy is canceled or non-renewed for any reason including non-payment of premium whether by the company or at the insured's request, the named insured may elect to have an endorsement issued providing an extended reporting period upon payment of an additional charge as follows:

Tail factors apply to mature claims made expiring annual premium.

Definition of Tail Coverage – This term has been used to describe the exposure that exists between the retroactive date and expiration date of the policy and the coverage that may be purchased to cover that exposure. On "claims made" forms, tail coverage may be purchased to extend the period for reporting covered claims beyond the policy period.

Extended Reporting Endorsement (Tail Coverage)

Tail Coverage Rules:

1. Purchase of tail coverage must be within sixty (60) days after the cancellation or expiration of the insured's NCMIC claims made policy.
   Example:
   Policy expires 6-1-05. The extended reporting endorsement (tail coverage) must be purchased by 7-30-05.

2. The extended reporting endorsement (tail coverage) will never be written to be effective before the insured's most recent NCMIC claims made policy retroactive date.
   Example:
   The insured's claims made policy retroactive date is 7-1-05 and expiration date is 10-1-05. The extended reporting endorsement (tail coverage) charged at the first year tail coverage rate would be written to cover the time period from 7-1-05 to 10-1-05.

3. The extended reporting endorsement (tail coverage) will be pro-rated for partial years.
   Example:
   An insured has a malpractice insurance policy with us issued with a $1,000,000/$3,000,000 limit of liability. The insured has a retroactive date of 1-1-04 and the insurance policy is canceled with us on 3-28-05. The charge for the insured's tail coverage premium has been computed below.

   a. You first must determine how many days between the retroactive date and the cancellation effective date.
   b. Determine the MATURE claims made base premium for the policy limits the chiropractor is requesting to purchase.

The calculation is as follows:

Base rate $1,788 x (Increased limits factor) 1.75 = mature claims made base premium $3,129.00.

   c. Determine how many years, or days, the retroactive date is from the policy termination (cancellation or expiration) date.

Retroactive date 1-1-04 to full year policy renewal date of 1-1-05.

Mature claims made base premium		$3,129
Tail factor for 1 year	x	0.654
Extended Reporting Period Premium 1 yr.	=	$2,046.00

d. Count the remaining number of days left until the policy termination date.

1-1-05 to 3-28-05 is 87 days.

e. Pro-rate the remaining number of days to the policy cancellation date.

Partial year rates will be interpolated using the actual number of days covered on a claims made basis.

The calculation requires first determining the premium for two full year of tail coverage.

Mature claims made base premium		$3,129
Tail factor for 2 years	x	0.975
Extended Reporting Period Premium 2 yrs.	=	$3,051.00

Calculation:

Extended Reporting Period Premium 2 yrs. ($3,051.00) – Extended Reporting Period Premium 1 yr. ($2,046.00) = $1,005.00

Number of days	87
Number of days in year	365

f. Calculate: (87 / 365) x $1005.00 = $240.00

Extended Reporting Period Premium 1 yr. $2,046.00 + $240.00 = $2,286.00

4. Tail coverage is priced at the rules and rates in effect as of the most recent effective date of the policy to which the extended reporting period endorsement is attached.

5. Tail coverage is free of charge if a doctor dies and will be provided to the insured's estate upon notification of the insured's death. Tail coverage is free of charge if a doctor becomes permanently disabled and can no longer practice as a chiropractor. Tail coverage is free of charge if a doctor retires from practice after five (5) years of continuous coverage under the NCMIC claims made policy and is at least 55 years old. The endorsement will date back to the current claims made policy retroactive date.

6. Risk Management Discount

We offer risk management discounts for insureds that complete NCMIC Board certified programs. The risk management discount will only be applied to the doctor's base premium. The maximum total risk management discount available per policy period is 15%. The discount will only be applied on the insured's renewal premium.

Maximum Discounts Available

The maximum risk management and claims free discounts that can be obtained are 35%. However, the maximum risk management and claims free discounts available for any insured who is also receiving a premium discount will be the actual risk management and claims free discounts (up to 35%) multiplied by percentage of discounted premium paid by the policyholder.

Example: Assume the full-time base rate is $1,500 and a doctor is receiving a faculty discount of 50%. Also assume the doctor is eligible for a 20% claims free discount and a 15% risk management discount. In this example, the maximum risk management and claims free discount this doctor is entitled to is 17.5%. Premium to be paid is calculated as follows:

$1,500 x .50 =	$750 (faculty base premium)
(20% + 15%) x .50 =	17.5% (total discounts allowed)
$750 x 17.5% =	131.25 (discount amount)
$750 – 131.25 =	$618.75 (premium to be paid)
