Brief description of filing. (If filing follows rates of an advisory Organization, specify organization):

CAMICO is filing for a 19.8% rate increase. The rate increase is principally due to adverse development

in the loss reserves due to a change in the loss climate as losses resulting from the economic downturn have adversely affected the accountants' professional liability exposures. The increase loss exposure has impacted the loss development factors as claims are emerging later than expected and additional high value loss exposure. Also the data doesn't reflect the losses from the "Madoff ponzi" scheme.

*Adjusted to reflect all prior rate changes.

**Change in Company's premium level which will result from application of new rates.
